- Thurs., Mar. 26
Continuing Education (9:00)
Chapter Meeting (10:00)
- Sat., Mar. 28, 10:00-1:00PM
Grafting Class, Annex
- Tues., Mar. 31, 9:00-Noon
West/East Greenhouse Crews
Discovery Garden workday

The President's Post

Nancy Fuller

We have been enjoying beautiful sunny days, but we need rain! The early flowers and plants coming up in our gardens are in need of hand-watering already. Let's hope that there's rain in the near future before the temperatures go up.

The East and West greenhouse crews are busy getting ready for the Plant Sale. Thank you to everyone who's been out working every week.

Photo: B. Courter

A highlight of the past month was the planting of the Peace Tree in the Japanese Garden. The ginkgo was grown from the seeds of a tree that survived the atomic bombing of Hiroshima, Japan. Steve Renquist chose the date and time of

02/20/2020 at 2:20pm for the planting ceremony. Approximately twenty members were present for the ceremony, including three of our current trainees. A special thank you to Mark Schmoll and Ernie Amabisca for their site prep work that looked great and made the planting go well. Another special thank you goes to Sharon Hopkins for her wonderful artwork for the sign explaining the tree.

Photo:Kish Doyle

When you have the opportunity, go out and see the tree and the many early blooming plants throughout the Discovery Garden. It will be an enjoyable experience.

Photo:Lenore Drake

Our 2020 trainees are almost finished with the program! They are excited and eager to be done and working toward their payback hours. Take the opportunity to get to know them and welcome them into our chapter.

Keep in mind that our annual Trash to Treasure Sale is March 7th. For the first time it will be held at the Winston Community Center. It is a great chance to help the chapter by donating items and then buying something new - or should I say, "next to new". Hope to see many of you there.

Vice-President's Report

Diana Woodward

We had a fun time at our monthly Chapter meeting last Thursday. Our own veteran Master Gardeners Leo Grass and Carol Bolt taught us about testing soil. One of the services our organization provides is soil testing. Currently Carol Bolt is heading that up. She took over where Leo left off. We were treated to both of them doing the test real time and elaborating on what they were doing and why.

Leo shared this is a test you do not need to do every year in your garden or raised beds, but every 3-5 years. Once you get results from a soil test, you know what is deficient in your garden, and when those "materials" are added to your soil, it takes some time to work their way through the soil.

Our next Continuing Education will be with one of our new students, Kendra North. She is going to be bringing in some of her Bonsai trees. She is going to talk about

everything Bonsai, from certain native plants in Oregon that you can use, what kind of pots to use and she will demonstrate how to trim for bonsai. That education hour will be 9:00 AM, March 26th.

At our April meeting Ann Severson will be bringing in some of her succulents to teach us about their care, soils to use, transplanting, dividing and how to tell an outdoor succulent from an indoor succulent. That is my big question!

I have a few other educators I am speaking with about other potential classes, but any suggestions would be welcomed. Also we need a home host for our June meeting and potluck. Instead of an education hour, we will meet at a home of a Master Gardener, in their Master Gardener yard, followed by a potluck. Those are my favorite meetings! Hope to see you all at all three.

Treasurer's Report

The Plant Clinic is one of our DCMG programs that reach out to our community to help people solve a wide range of gardening and landscape questions. This includes diagnosing plant problems and identifying insects. The Plant Clinic training program is a great opportunity for our new

members to put their knowledge of sustainable gardening to work. The Plant Clinic began training our newest volunteers from the class of 2020 starting on Monday, February 3rd. We are lucky to have a great training team this year with Leo Grass, Bonnie Courter, Larry Sutton, Chris Rusch, Karolyn Riecks., Barbara Horst and Ernie Amabisca.

During the months of February and now in March the Plant Clinic calendar is devoted to training. Veterans can begin signing up to volunteer at the clinic again in April, after all the students have completed their initial training. Mentors and new students need to sign up for their training now.

The Plant Clinic statistics for February showed over 50 visitors, an incredible effort by all of our volunteers. Thank you to everyone that continues to be a part of our outreach objectives.

The clinic will be open in March officially on Mondays, Wednesdays and Fridays from 1-4. During the rest of the week we will be devoting our efforts towards the training of the new class.

Some tips for your March Gardening Calendar:

- Practice preventive pest management. Apply horticultural oils now before bud burst.
 - Plan your vegetable garden. Plant cool season crops such as peas, lettuce, spinach, and kale.
 - Spread compost over the garden and landscape areas.
 - Prune spring flowering shrubs after blossoms fade.
 - Plant berry crops.
 - Fertilize rhododendrons, camellias and azaleas with acid type fertilizer.
 - Protect new plants form slugs.
 - Start rose blackspot control starting at bud break.
- Spring is almost here!! Enjoy the season.

Apple Grafting Class - Steve Renquist

I will be leading an apple grafting class on March 28 from 10am-1pm. This is a Saturday. The class will cost \$25 for MG's and each person will get 2-3 grafted trees. We will have room for 15-20 students in the class. The class will be in the Extension auditorium. Come by the Extension office to sign up for the class. The class will be grafting trees for future MG Plant sales too.

LAST CALL FOR METALS! - Julie Stanbery

If you have scrap metal you'd like to recycle, bring it to the HLC by March 15. The pile is on the northwest corner of Panches Palace. All funds will be donated to HLC maintenance.

Wanted! Garden hand clippers/pruners for the Discovery Garden - Fred Alley

I refurbished a number of hand clippers and prunes for the Westside Garden last January. I also added a number of loppers and hedge clippers to the Discovery Garden Tool room last fall. What we are completely lacking for the Discovery Garden are any garden hand clippers/pruners like those displayed in the above photograph. I'm willing to refurbish any clippers/hand prunes donated by our fellow Master Gardeners and place them back into our tool room for use by our work crews at the Garden.

If you have any that you would like to donate, just drop them off at the Discovery Garden tool room or at the Plant Clinic. Thank you!

At our Winter Training class on February 25, our Awards Committee presented Bonnie Courter, Kish Doyle and Barbie Hamby with certificates and

flowers to acknowledge all their hard work with the Winter Training Program. Bonnie and Kish are the Winter Training Coordinator(s) and Barbie is our Hospitality star. The Master Gardener program is centered on education and relies on its volunteer base. Having volunteers as dedicated as these three ladies is phenomenal.

Bonnie and Kish's organizational skills are put to good use in this program and the students are having fun while learning sustainable gardening. Barbie handles the challenge of having 50 or so people in once a week for treats and coffee with a welcoming smile and grace.

Steve Renquist reported at our Executive Board meeting this month that "Winter Training class is going well, and Kish, Bonnie and Barbie are doing a great job." I heartily agree.

Another big thank you to Bonnie, Kish and Barbie. You are great DCMG volunteers!

Plant Sale

Bonnie Durick

Plant Sale time is quickly approaching and will be here before you know it. This year it is on Saturday, May 2 with setup on Friday, May 1. Sign up sheets are ready and waiting for you to sign up for helping on both days if possible. They will be at the chapter meetings, the Winter Training classes and then in the Plant Clinic. If you are unable to get into the Extension building to sign up, you can let me know where you would like to work. You can call me at 541-672-3404, 541-671-8954 or email me at durick1@msn.com and I will see that your name is put on the sign-up sheet.

We will again have the Master Gardener only presale. This year it will not be after the chapter meeting because at the end of the meeting we will be loading up tables and “stuff” from the Extension office and HLC to be ready to take to the Fairgrounds on Friday. So - presale will be Thursday, April 23 and Sunday, April 26 from 1-3 out at the greenhouses.

Let me introduce my great team and give a quick summary of what some of the jobs entail so you can better decide where you want to help.

BOXES - Ken Hays. Boxes are gathered year around and brought to the sale to hand out to customers to make their shopping more convenient. We need close to 1000 boxes for our sale.

CHECKERS/CASHIERS - Karen Glatz. We need at least 30 people for these positions. They are responsible for tallying up the purchases and processing payments. Cashiers need to have a smart phone that the credit card square can attach to. Training will be provided. These jobs are on Saturday only. Only a few have signed up so far and we need many more people in these roles.

CLEAN-UP - Janet Parkerson. Workers in this role keep our plant sale tables clean and orderly. There isn't any heavy cleaning, but work to sweep the soil off the tables, remove trays as they are emptied of plants and store them at the sale. As tables are emptied, they are wiped off.

DISPLAY - Anne Bacon. Working with Betty Bean's team, volunteers will put out signs identifying the plants for the customers.

FAIRGROUND SETUP- Jan Kirchner. Unloading the plants from the trucks and getting them to the appropriate location on the tables at the Fairgrounds are the duties of this group. We have to move several thousand plants, so it is a huge job. Carts are provided to move the plants. Then at the end of the sale, leftover plants are moved back to trucks to be taken back to the greenhouses.

FAIRGROUND CUSTOMER SERVICE - Anne Bacon. Working the day of the sale, these volunteers are on the floor in designated areas (areas of their choice) to assist customers, answer questions and keep their area organized and neat.

FINAL PICKUP - Bonnie Courter. Shoppers can leave their already-purchased plants here to continue shopping at the vendor's booths or leave the plants while they get their vehicles to load. This is a Saturday position.

FOOD MANAGEMENT - Barbara Hamby. Organizes the potluck food, keeps the coffee going and has that area ready for lunch and cleanup after.

GREENHOUSE LOADING/UNLOADING OF VEHICLES - Carol Bolt. Getting all of the plants onto the trucks to bring to the Fairgrounds is a huge task. This team works to get the plants loaded in a pre-set order for sending to the Fairgrounds on Friday and then getting them to the correct greenhouse on Saturday after the sale.

VENDOR/HALL SETUP - Jen Bailey. These volunteers help vendors locate their assigned booth locations, place the curtains to separate vendor area from plant sale area and place signs around the hall. Then at the end of the sale, curtains come down as well as all the signs.

HOLDING AREA - Kay Livermore. This area is an area where shoppers can bring their boxes of plants to free them up to do more shopping in the Master Gardener sale area before completing their purchases. This is a Saturday position.

RAFFLE - Diana Circle and Sharon Hopkins. The raffle is another fundraising part of our sale. These workers sell tickets and assist customers in selecting the items they want to try for and at the end of the day, notify the winners of their prize. If you have any items that could be used in the raffle, please contact Diana or Sharon.

REFERENCE TABLE - Leo Grass. Customers always have questions so we provide a mini- Plant Clinic where we can answer their questions and give advice.

SECURITY AND TRAFFIC CONTROL - Dennis Moore. We have a lot of people at the sale and this team makes sure all goes smoothly. On Friday, these volunteers can assist vendors in bringing in their wares, and help with the general setup of the building. On Saturday, we need people at multiple stations to help with traffic flow, be with the Treasurer as a lot of money is changing hands, and being available to assist with any issues that arise.

TABLE SET-UP AND TAKE DOWN - Bruce Gravens. We have over 120 tables and 100 chairs that need to be setup on Friday. We have a layout map of where everything is to be placed but need a lot of hands to get it done, and then on Saturday, taken down. These volunteers will also be working with Jen Bailey to get the curtains up after the tables have been placed.

TRANSPORTATION - Ed Cole and David Clark. These volunteers get everything to the sale and back to where they belong. We need 2 people willing to drive the two, 26 foot long U-Haul trucks we will be renting on Friday. Also, we need many helpers on Thursday, April 30, to load all of the tables and supplies from the Extension office and out at the HLC to be taken early Friday morning to the Fairgrounds to begin set-up. On Saturday, the process is reversed. We won't have the U-Haul trucks to take plants back to the greenhouses, but will need people with covered trailers or pick-ups. We don't want any of our plants wind whipped, so a covered trailer or truck is a must.

Please sign up for one or more jobs. We need a lot of people to make this sale successful. It is a lot of work, but it is fun. For the students in the Winter Class, this is a great opportunity to get a lot of payback hours logged.

WANTED!

LOOKING FOR

MG's to fill up

the following leadership positions:

DCMG President, 8/20

DCMG Treasurer, 8/20

DOUGLAS COUNTY MASTER GARDENERS

Chapter Meeting

February 27, 2020

Call to Order: The meeting was called to order at 10:10 AM. There were 31 members in attendance along with Board members Nancy Fuller, Diana Woodward, Bonnie Courter, Kay Livermore, Barbie Hamby, Toni Rudolph, and Chris Rusch.

Agenda Approval: Approved as posted.

Minutes Approval: The minutes were approved as posted on the website.

Agent's Report - Steve Renquist:

- Spring Into Gardening - So far we have 50 registered for the sessions. Registration is officially over, but Steve encouraged people to come anyway and enroll at the door.
- Winter Training - Class is going well. Steve has had good feedback from students. There are just two weeks left of classes followed by the practical out at the Discovery Garden and final test review and graduation the last day. Bonnie and/or Kish will help Steve set up the practical.
- If MG's need recertification credits, Steve encouraged them come to the remaining classes and sit in on the lectures.

OFFICER REPORTS

Membership - Kay Livermore: The chapter has 249 members to date.

OMGA - Barbie Hamby:

- The OMGA quarterly meeting will be March 6-7 at Grants Pass. Everyone is invited. The topic on Friday at 1:00 will be an OMGA orientation - its history, purpose, procedures and programs.
- Barbie is requesting MG's to donate snacks for Spring Into Gardening this Saturday.

Treasurer - Toni Rudolph:

- Toni reiterated that we can accept people walking in the door the day of the sessions, and we're prepared to accept credit cards, checks or cash.
- The original deposit of \$250 for the use of the Phoenix school was returned since we handed it over to OSU.
- We received a contribution of \$25 from Kroger (they only award it when totals reach at least \$20.) We get contributions on a quarterly basis from Amazon Smiles.
- The \$990 deposit refund from PP&L will start to show up on bills in May.

Vice-President - Diana Woodward: Ron Owan has volunteered to host the August chapter meeting at his home. Diana still needs a volunteer meeting place for the June chapter meeting. Kish will mention it during the next class and see if there's any new students willing to host us.

Potential classes for Continuing Education - bonsai from one of our new students and a preparedness class for emergencies.

Past President - Chris Rusch: Chris handed out MG cards for business discounts. They will be placed in the Plant Clinic drawer where time sheets are kept.

President - Nancy Fuller: Nancy thanked Leo Grass and Carol Bolt for presenting soil testing for this morning's Continuing Education. She also thanked everyone for all the help at the pruning classes. Nancy (President) and Toni (Treasurer) will both be stepping down from their Board positions in August, so be thinking of who might step up to take their places. It would be great to have someone shadow Toni until taking over in August.

COMMITTEE REPORTS

Awards - Diana Circle:

- Swinger bars - 12 people still need to get their's from Diana.
- On Tuesday, Barbie, Bonnie & Kish were presented with certificates and flowers in recognition of their hard work organizing the winter class.
- Diana is creating a historical record for all the members, starting this year, listing each member's participation in activities.

- She is also co-chairing the raffle for the Plant Sale. Donations can be dropped off at class, at meetings or contact Diana.

Community Outreach - Leo Grass:

- Leo thanked Jude Stensland for her service as Community Outreach.
- On March 4 at 4:30 PM, Leo will meet with a group from Myrtle Creek that wants to start a pollinator garden. Another group from Myrtle Creek wants to start a community garden, so anyone from Myrtle Creek who wants to help, contact Leo.
- Perinatal Task Force - There will be an informational meeting on May 1, advocating for good nutrition for young mothers, and how to raise their own produce.
- Halie Cousineau is the Extension school garden coordinator, and Leo worked with her at the Winchester School, setting up garden space.
- An English teacher in Days Creek wants a tour of the Japanese Garden for his 10th grade students. One of their reading assignments for class is to read "The Samurai's Garden". No date has been set yet for that.
- Mercy Hospital wants to persuade their employees to take up gardening for their health, so on March 6 at the hospital from 10:00-2:00, Leo will be there to talk about gardening.

Discovery Garden - Julie Stanbery: not present. Nancy gave her report.

Photo: K. Doyle

- We planted the Peace Tree in the Japanese Garden on February 20. Mark Schmoll and Ernie Amabisca prepped the site. Steve dug the hole and set the tree in, and Sharon Hopkins made the sign. There was a nice article with photos on the front page of the News-

Review the next day. More than 20 MG's attended the planting.

- Discovery Garden pruning is 90% finished, with lots of students and veterans coming out to help. The last pruning date is March 24, 1:00-4:00, for Japanese pruning.
- Discovery Garden work days will commence Tuesday, March 24, 9:00-12:00.
- Hemlock mulch is available for the gardens.

Facebook/Publicity - Barbara Horst:

- Facebook - Our Facebook page has 1,410 followers. Kish is helping Barbara with Facebook as co-administrator.
- Publicity - There will be a classified ad in the News-Review for Trash to Treasure Sale starting Sunday, running 3 days. Barbara also submitted an article in the News-Review about the sale.
- Plant Sale - She picked up the flyers today, and they look great. Sharon Hopkins did the lovely artwork.

Greenhouse East - Bruce Gravens: Ann Severson reported for Bruce. The crew is working on succulents and getting plants ready for the sale on Thursdays, 9:00 -12:00.

Greenhouse West - Barbara Robinson: not present. The crew is working two days a week, seeding and transplanting. Watch for emails for work days.

Hallmark - Linda Thames:

- A thank you card was sent to the Ford Family Foundation for awarding the \$5,000 grant to construct our new greenhouse tables.
- A thank you card was sent to Kyler Barraza in care of The Sign Factory for his help with the design and completion of the Peace Tree sign in time for the official planting.
- A card was sent to Verge Jones who fell and broke her ankle followed by surgery.

Newsletter/Winter Training - Bonnie Courter:

- Newsletter articles are due Saturday. There are 14 subscribing to the mailed edition. If anyone would like to subscribe, see Bonnie. The cost is \$17.50.
- Winter Training - There are just two more classes before graduation. Kish and Bonnie will conduct one more class - 2021 - then someone else will need to

take it over, preferably a team. Ideally we would have someone to shadow us this fall when we begin interviews and registration so they can learn the ropes.

Plant Clinic/Spring Into Gardening - Chris Rusch:

- Plant Clinic - Orientation for our new students is still going on - half the class has already completed their first session. We only require 28 hours of Plant Clinic starting this year.
- Spring Into Gardening - We will allow walk in's on Saturday. Some classes are full already. Registration starts at 8:30 and it's over at 4:00. Volunteers should arrive at 7:30 AM - there's a lot of setup to do.

Plant Sale - Bonnie Durick: May 2 is the sale with setup May 1. After chapter meeting April 30, we will all help load up sale equipment stored at the Annex into trucks. Signup sheets are in the back - we still need cashiers and checkers. We are renting two big U-Haul trucks this year. Need two people to drive those. Need more boxes - not giant ones, but sturdy, smaller ones like the stackable ones available at Costco. Raffle items are needed - please donate them to Sharon Hopkins or Diana Circle. Presale will be April 23 and April 26, 1:00-3:00, at HLC. Potlucks are on Friday and Saturday. If anyone knows of any vendors who might like to participate, let Jen Bailey know. We have 25 right now.

Trash to Treasure - Ann Severson: Ann took a tour of the Winston Community Center this week. There's a loading dock there so that will be a big help for loading furniture or large items. We are getting another room for free to use as a holding area. The kitchen has coffee pots already along with a refrigerator and cooler to put lunches in. Set up is at noon on Friday. The city of Winston is enthused about it. We have an ad on their reader board. The sale is March 7, with setup March 6 starting at noon. Donations can be left also starting at noon on Friday. Volunteers working Saturday should get there by 8:00-8:30 AM.

Victory Garden - Ruth Stafford: We had the first work day yesterday with 11 workers showing up, including 2 new students. Moved panels. Watch for emails announcing work days. We will generally be working Mondays or Wednesdays until class is over. Everyone is welcome.

OLD BUSINESS

Policy & Procedures

Nancy reminded chairpersons to look over their policy and procedures and send any revisions to Jen Bailey. We need this task completed for sure by the next chapter meeting in March.

NEW BUSINESS

Earth Day Fair

Earth Day celebration will be April 11 from 10:00-4:00 at the Fairgrounds Exhibit Building. Nancy's Audubon group is adding a new feature to include information on planting gardens that are pollinator and bird friendly. If interested in helping, contact Nancy Fuller.

ADJOURNMENT: The meeting was adjourned at 10:55 AM.

Respectfully submitted,
Bonnie Courter, Secretary
